

Safety Identification Solutions Across All Industries

ELECTRICAL MARKERS

Industry standard wire markers and cable markers, as manufactured by LEM Products, Inc., are made of vinyl cloth with pre-printed legends and are available as wire marker cards or bound in wire marker books. These wire and cable markers are made of vinyl-impregnated cloth with a superior adhesive which permanently adheres the wire marker or cable marker to the wire or cable during electrical installation, construction and maintenance for proper and compliant electrical wire identification.

LOCKOUT TAGOUT

LEM offers lockout/tagout stations, tags, labels and signs for ANSI & OSHA lockout/tagout compliance. These products provide the safety measures necessary for workplace safety. While safety signs denote levels of danger and the action that should take place, Lockout/Tagout stations contain the locks, tags and hasps to lock out equipment before and during routine maintenance or repairs. LEM's lockout tags conform to both ANSI (Z535) and OSHA (29 CFR 1910) standards. LEM is an approved distributor of Master Lock Safety Series locks and hasps.

FACILITY & SITE SAFETY

Job related injuries and fatalities occur in workplaces around the country. Proper procedures in preventing accidents include marking the workplace with floor markers, barricade tapes and aisle markers. LEM manufactures these products using durable base materials to ensure the most appropriate materials are available for your workplace safety requirements. These include Striped and Checked Vinyl Safety Tapes, Barricade Tapes, Aisle Marking Floor Tapes and Non-skid Round Floor Markers.

SAFETY SIGNS

LEM makes a complete line of safety signs, warning signs and caution signs for indoor and outdoor industrial, construction and commercial applications. Our signs are made of embedded fiberglass, aluminum, plastic and pressure sensitive vinyl. Safety signs are available in hundreds of legends that will provide proper compliance such as Emergency and First Aid signs, Fire Safety signs, No Smoking signs, Construction signs to denote Hard Hat Areas, Hazardous Materials signs, Danger, Caution and Notice signs and many more.

HYDRANT RINGS

LEM Hydrant Rings provide important information to firefighters regarding the functionality and ownership of hydrants. Stock Hydrant Rings are UV and weather resistant plastic disks with printed legends. Materials are available in a variety of colors. Out-of-Service Hydrant Rings provide identification of fire hydrants determined to be out-of-service or requiring maintenance. Hydrant Rings are easily applied in the field. The rings have various inner opening diameters to accommodate a range of valve sizes.

TAGS

LEM manufactures a complete line of durable plastic safety tags including danger tags, warning tags, accident prevention tags, equipment tags and many more. Many of these safety tags are self-laminating tags, and bilingual tags. All meet applicable OSHA (Occupational Safety & Health Administration) and ANSI (American National Standards Institute) standards. These safety tags draw attention to potentially dangerous or abnormal situations in your plant, such as High Voltage or Confined Space with highly visible printed headers of DANGER, WARNING, CAUTION or NOTICE.

LABELS

LEM Safety Labels and Stickers are available in various formats to help you meet ANSI Standard Z535.4, requiring equipment manufacturers to mark equipment in compliance using Machine Warning safety labels. LEM safety labels and stickers are available in a variety of materials and can be customized to your specifications. Lexan labels and decals are scratch resistant labels with a durable adhesive. There are four basic messages that should be communicated on a warning label: The nature of the hazard; The degree of the hazard; The consequence of the hazard; How to avoid the hazard.

UTILITY MARKERS

LEM Products is a leading provider of utility signage, voltage markers, utility pole markers, transformer labels, phase tags and more for the utility industry. Marking utility lines and power sources with Warning Stakes and Marking Whiskers for buried lines or Do Not Climb signs on overhead transmission towers to No Trespassing Substation Signs are vital in providing information for the protection of all persons working in or around any energy source or industrial area. LEM safety labels, tags and signs are available in English or bilingual (English/Spanish as well as other required languages.)
